1. Environmental Policy

GR White & Son Ltd. are based at 43 Main Street, Tempo and provide the following services: electrical contractors, from installation through to maintenance and alteration. The growth in business has demanded continual development and investment in modern management practices, with the introduction of new technology to underpin service standards. It is the policy of G R White & Son Ltd. to provide the best possible service to its customers whilst minimising the company's impact on the environment.

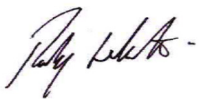
Key Environmental Policy commitments include:

- We are committed to meeting environmental legislation, including regulation relating to fuel containment, water and land contamination, and the responsible disposal of hazardous or controlled waste.
- We aim to prevent pollution of water, air and land from the storage and handling of materials at our office and yard site.
- We aim to continually improve our environmental management system and enhance our environmental performance.
- We are committed to fulfilling our Compliance Obligations.
- We will set environmental objectives and targets and review progress in achieving those objectives.

Objectives are set to ensure that the correct planning and leadership is given to achieve environmental improvements. The success of our ISO 14001 system depends on the commitment from all staff inside our company. Every employee is expected to adhere to the spirit as well as the letter of this policy.

This environmental policy is available to the public on request and will be included in company literature. The policy is posted on staff notice boards and included in environmental awareness training.

Signed



Rodney White
